

LIGHTWEIGHT DAYPACK

Avenue

The AVENUE is our lightweight, keep-it-simple city day pack. The QuadPad body panel delivers excellent stability and comfort when cycle commuting. The teardrop profile and clean exterior mean that you're not going to get hung up when you squeeze into a lift or cut too close to a bus. Reflective logos and a light mount complete the safety side of the equation. The full clam-shell opening provides clear-sight access to everything: the laptop sleeve, pen organisers and internal pockets. The full depth external pocket provides convenient stowage for essential en route items.

FEATURES

- » Generous, full depth external pocket
- » Full base rand for wear protection.
- » Soft contact, QuadPad body panel and shoulder harness.
- » Detachable, quick-release, waist stabilisation strap.
