

# Convert 38AX Hip Harness

This one-piece hip harness assembly comes fitted to Wilderness Equipment Pack 101 Outdoor Education packs. It has a soft yet durable spun polyester facing for comfort and long-term performance. Attachment to the pack is through pockets in the hip harness which secure the ends of the frame bars where they protrude from the pack, the hip harness is secured to the pack on the outside of the pack bag by a large lumbar pad. If looking to replace a harness which has been damaged directly, choose a Small size for XS/S packs, or Medium for Medium, Medium-Slim, and Large size packs. Alternately, choose the size that best suits the need of the user.
