

OUTDOOR EDUCATION BACKPACK

Outbreak

An exceptionally economical and rugged performance backpack. The Outbreak is tuned for institutional use. The hard-wearing, easily-cleaned, synthetic fabrics used on both the bag and harness components minimise cleaning and maintenance work. This pack incorporates all the essential and proven design features, strength and comfort of the canvas Breakout model. Strong, dual-back-length settings on all bags provide valuable flexibility in correctly fitting a group of youths. The engineered, anatomically-excellent Perfect-FIT harness system folds away for easy storage. Even ignoring its design heritage, build-quality alone would be a reason to choose this pack for outdoor education backpack fleets.
