

Pannier Dry Liner Bags

These seam-sealed waterproof Dry Liner Bags are supplied as a pair inside Transconti Panniers, or as a replacement set on their own. The shape of these liners is defined by the panniers they are to be used with; the Small/Front 30 litre set are a rounded rectangle, where the Rear 45 litre are trapezoidal. Coloured bright red and with a reflective logo for visibility externally, the interior is light grey to improve ease of locating items within. Top closure is a dry bag style roll top for best resistance to water entry, secured with a 20mm buckle.

FEATURES

- » Bright red exterior for visibility, light grey interior for ease of locating items within
- » Roll-top dry bag style closure for reliable water resistance
- » Reflective logo for safety.
