

CLASSIC CANVAS DAYPACK

Slipstream

Instant access and a water-shedding design.

This original WE design was inspired by our own cycle commuting requirements. It remains a favourite. The sloping top panel gives this bag the best possible water-shedding, weather-resistance. Immediately you start using this pack you will discover its convenience: fully unzip the bag canopy and the entire contents can be easily viewed and accessed. Selecting from the contents is a breeze. With more than 20 litres usable capacity this rugged daypack is ideal for just about every trans-urban, work-day journey.

FEATURES

- » A highly durable daypack for cycling and everyday use
- » Soft lined, external electronics/sunglass pocket
- » Full base rand for wear protection
- » Internal padded laptop sleeve
