

BACKPACKING SHELTER

TR-Trek

We've gone full circle! Back in 1977, the TR tent was the tent which launched Wilderness Equipment. Here, we have re-imagined our first ever design, using the highest quality modern, lightweight materials, and pitching with trekking poles (BYO). This tent breaks new ground in lightweight design and performance, with fabrics and construction at full spec, including the 5,000mm PEU coated floor and 3000mm outer skin, in a package under 1.4kg! Nothing has been compromised in delivering this weight, this tent has a full fabric inner tent, perfect for colder weather, while still maintaining excellent ventilation through mesh panels on the doors. If you're already a trekking pole user, this tent provides a 700 gram weight saving over our Space 2 Winter tent, in exactly the same fabrics.

FEATURES

- » Spacious, stable, 2-person, four-season backpacking tent
- » Vestibules and openings on both sides for convenient access and cross-ventilation
- » Effective (and innovative) outer tent vents at ridge height
- » 30d sil/sil nylon 66 ripstop outer skin with 3,000mm HH
- » 20d nylon inner tent canopy fabric
- » 40d high-tenacity ripstop nylon floor with 5,000mm HH pigmented PeU coating
- » Side and end guy points provided
