

CLASSIC CANVAS DAYPACK

Traverse

The Traverse is a truly useful and classic design. At 33 litres it has the capacity to go further and do more day-to-day. The single compartment and large back pocket provide essential versatility. The simple drawcord throat and generous, buckle-over top combine ease-of-access and overload potential with excellent wet weather performance. For added convenience the top cover now has a built-in zip pocket, great for keys and odds and ends, and another flat zip pocket inside the front panel of the bag, above the outside pocket. The canvas side pouches have replaceable shockcordinated rims. Our new 'form-adaptable', segmented back panel combines great comfort with the toughness of corespun canvas. Combining the endurance of high quality canvas with detailed wear reinforcement, the Traverse has the potential to serve a lifetime.

FEATURES

- » A rugged, versatile, top-loading daypack
- » Great for day bushwalks, student commuting and all general use
- » Generous back pocket with heavy-duty zip
- » Full base rand for wear protection
