

OUTDOOR EDUCATION SHELTER

i-Explore 3 Winter

For wetter and colder climates we offer this winter version of the popular i-Explore 3. This model has an all-fabric inner tent, designed to handle cold conditions and to exclude spindrift snow or dust. Otherwise it is identical. Mesh panels in the upper part of the two doors have simple zip-down fabric covers. In common with all our institutional tent models all zips are heavy-duty and original WE easy maintenance features come standard. This is an excellent trekking and general purpose tent for cold and wet climates. It is easy to set-up, has twin access and vestibules, cross-ventilation and space for three adults.

FEATURES

- » Inner Pitch First / Integral Pitch
- » Outer Tent Fabric: 75d ripstop polyester, dwr face, tape-sealed, 3000mm PE back coating
